

Documentary storytelling for *climate, food security, and smallholder livelihoods* programs in Nigeria & West Africa.

Eighteen years and ten countries of TV and digital media experience — produced for the NGOs, INGOs, and donors building Nigeria's development sector. Field-ready teams, hard-to-reach-area execution, and a Northern Nigeria native-language crew based out of Abuja.

WHAT WE PRODUCE

End-of-project documentaries

Long and short films that capture programme impact, lessons learned, and beneficiary voice for donor reporting and external comms.

Field-mission documentation

Donor and delegation visit coverage — video, photography, interviews — produced in real time across multi-state field deployments.

Beneficiary stories & micro-docs

Short-form, character-led stories for social media, advocacy campaigns, and proposal-attached evidence of community impact.

WHY CLIMATE & LIVELIHOODS CLIENTS PICK US

01 Repeat-client trust

HortiNigeria (IFDC, Dutch Embassy-funded) hired us a second time in November 2024 after our first deployment in December 2023.

02 Hard-to-reach area execution

Delivered in Borno, Benue, Kaduna, Kano and Plateau under COVID, conflict, and remote-rural conditions across 9 LGAs in 10 days.

03 \$95M-program-grade documentation

Documented the Islamic Development Bank Lives & Livelihoods Fund Kano agro-pastoral mission for IsDB, BMGF, Abu Dhabi DF, Qatar Fund & King Salman Centre.

04 Northern Nigeria, native language

In-house DoP fluent in Hausa and other Northern languages — direct community access, no translator lag, lower fixer costs.

“The team was incredibly proactive, fully engaging with the community and seamlessly managing every task. I usually need to provide direction, but this team worked independently with such professionalism.”

TANIA ASSAD — COMMUNICATIONS MANAGER, LIVES & LIVELIHOODS FUND (ISDB)
